Cikarang, West Java

PROFILE

I am a sixth-semester Informatics student at President University with a strong passion for UI/UX design and front-end development. Proficient in HTML, CSS, JavaScript, React, and Figma, with experience in building responsive, user-friendly interfaces. Strong communication, leadership, and teamwork skills, developed through academic projects and organizational involvement. Eager to contribute to innovative, user-centered digital solutions.

EDUCATION

President University | *Bachelor of Informatics, (GPA: 3.92/4.00)*

July 2023 - Present

- 70% Jababeka Scholarship Awardee.
- Relevant Coursework: Web Programming, Wireless and Mobile Programming, Server-Side Programming, Object Oriented and Visual Programming, Software Engineering, Artificial Intelligence, Computer Vision, NLP, Deep Learning.

ORGANIZATION & VOLUNTEER EXPERIENCE

Head of Information and Creative Media

November 2023 - Present

President University Major Association Informatics(HIMA)

- Led a team of 11 members in managing and producing content for PUMA Informatics' social media.
- Managed a structured content timeline, ensuring 10–15 social media posts per month, and provided guidance and feedback to improve design and publication quality.

Member of Public Relation Division in Temu Alumni 2025

February 2025

President University Major Association Informatics(HIMA)

- Found and contacted potential media partners, securing 11 partnerships within 3 days.
- Maintained ongoing partner relations and acted as an usher for 20+ invited media partners to ensure smooth collaboration and coverage.

Member of Design Division in Computing Atmosphere 2024

November 2024

President University Faculty Association(BEM Fakultas)

- Designed 5+ visual assets including Instagram posts, event placards, and promotional materials for the Faculty of Computer Science's largest annual event.
- Collaborated with a 10 person design team, enhancing creative execution and ensuring consistent branding across all media platforms.

Person in Charge(PIC) of Design Division in Comparative Study 2024

March 2024

President University Major Association Informatics(HIMA)

- Led design team as Person in Charge(PIC) of Design Division, overseeing the creation of 8+ visual assets and ensuring all outputs aligned with the event's visual identity.
- Developed the overall visual theme and color palette, coordinated task distribution, and improved team output by completing all deliverables a week ahead of the final deadline.

PROJECT

Bitly – Lapis AI

May 2025

- Developed web platform about food recognition system for calorie estimation using YOLOv8 and OpenAI models, enabling accurate identification of 10+ food items and calorie information. Integrated with a chatbot for food and calorie inquiries, in collaboration with Lapis AI Company, served as the final project for the fifth semester.
- Designed a responsive, visually appealing, and user-friendly interface to enhance the overall user experience using Figma, and develop the front-end using HTML, CSS, JavaScript, and Python(Flask).

iMEJ

January 2025

- Created a photo editing and enhancement mobile application with 10+ features including crop, enhancement, blur, and more.
- Designed a clean, user-friendly, and visually appealing interface using Figma, and developed the front-end using XML in Android Studio, ensuring responsiveness and smooth user interaction. Successfully completed the entire project within 4 days under a tight deadline.

Ticketopia

April 2024

- Created a ticketing and event management system enabling users to browse, purchase, and manage event tickets.
- Designed 3 UI pages to ensure a smooth and intuitive user experience, and developed the front-end integrated with the backend database for real-time data handling and seamless functionality.

PART-TIME EXPERIENCE

PT. Ruby Studio | *Graphic Designer & Video Editor*

October 2023 – May 2025

- Edited and uploaded 2 video contents daily (60+ videos/month) based on raw footage and creative briefs, ensuring brand consistency in thumbnails, visuals, and pacing.
- Managed YouTube uploads end-to-end, including writing titles and descriptions based on the creative briefs, contributing to increased viewer retention and channel growth..

Informatics President University | *Graphic Designer*

June - September 2024

- Designed 3 Instagram feed posts per week (100+ posts total) for the official Informatics major's account, ensuring visual consistency and alignment with academic branding.
- Collaborated with 4+ team members and the Head of Study Program to align content strategy with academic and marketing goals, increasing audience engagement and information clarity.
